

August 22, 2008

I met *Sasa Lukic of B.I.T. Technology Inc. (Vancouver, B.C.)* shortly before my climb of Mt. Everest in 2008. He was able to assist me with all my needs including taking the time to teach me how to use the Durabook laptop. His advice was dead on and the Durabook outlasted and outperformed every other laptop on the mountain. I took it to a height of over 25,000 feet above sea level where it worked better than I imagined any laptop could. When you climb you have to trust your team to keep you alive. I trust Sasa Lukic and would recommend him to friends, family and other climbers. His skill and knowledge as well as a superior product put him far above any other computer specialist I have ever met. The Durabook could handle the cold, wet and extreme conditions of Mt. Everest so I trust it in any condition in the world. Thank you Sasa and thank you Durabook for all that you have done. You both brought me home safely.

**Erik Bjarnason**

**Team Leader of the Courage To Carry On Mt Everest Expedition**
